A project about devolution, as it happens.
Explained in human.

THE SUSSEX AND THE CITY 100

The SATC 100 is an evolving cross-sector of Sussex success stories - that show leadership in their sector, and are invested in the future of Sussex and Brighton & Hove.

This whole project demonstrates that Sussex is an ambitious ecosystem, and more than the sum of its parts when making the case for regional growth, sustainability and confident identity. Any new elected mayor will need to hit the ground running, knowing what already works and what matters in the region.

100% of proceeds raised from the sponsorship cover costs of events, podcasts, real-time email bulletins, research and resources.
